Projects

PAPER TRADE / Stock market trading simulator

[GitHub](#) / [Deployed App](#)

- React application built with custom Ruby on Rails based back end and integrated with a third-party stock market API.

YOLO Bucket / Bucket list – things to experience in life

[GitHub](#) / [Deployed App](#)

- Full stack web application where the front end is created mainly with JavaScript/CSS/HTML, jQuery and Bootstrap and uses AJAX technology to interact with Express back end and MongoDB database.

uDJ / DJ audio sampler

[GitHub](#) / [Deployed App](#)

- Interactive full stack app that allows a user to play music with a custom library of audio samples. JavaScript/CSS/HTML based front end with use of Handlebars and SASS. The RESTful back end API is built with Ruby in Rails and interacts with PostgreSQL database system.

TIC TAC TOE / Classic game for two players

[GitHub](#) / [Deployed App](#)

- Front End application with a custom game engine uses such technologies as JavaScript/CSS/HTML, jQuery and AJAX.

Work Experience

GENERAL ASSEMBLY, Boston, MA / Software Engineering Immersive

July 2019 / October 2019

- Built rich, full stack apps with the most relevant languages and learned computer science foundations
- Mastered such technologies as Express, React, Ruby on Rails and many others
- Collaborated effectively with other engineers on group projects

STATE STREET CORP., Boston, MA / Operations Specialist

March 2019 / July 2019

- Tested newly implemented automation algorithms that allowed the company to increase department productivity by over 200%
- Developed a database to keep an accurate record of money movement operations for large corporate clients
- Communicated with the management and the team on weekly basis to provide updates on the project progress

PHOTOGRAPHER / Self-employed

June 2012 / Present

- Utilized Adobe Creative Cloud Suite to perform digital photo editing
- Effectively communicated with numbers of clients to maximize their satisfaction

Education

Volgograd State University / Bachelor of Economics

August 2014/ January 2017
